Work History

2019-01 - 2019-12

Full Stack Developer

Leonardo Worldwide Corporation, Toronto, ON

- Developed and optimized landing pages in various JS frameworks, HTML and CSS for cross-browser compatibility, with SQL and Java for backend.
- Designed solutions for hundreds of hospitality companies (e.g. Expedia) to help manage and assist in marketing properties.

2017-08 - 2018-12

Office Supplies Associate

Staples, Markham, ON

- Monitored company inventory daily to keep stock and databases updated.
- Increased customer satisfaction by assisting upwards of 30 customers an hour.

Education

2017-09 - Current

Bachelor of Science: Computer Science - Software Engineering Stream

University of Toronto – Graduated 2022

Projects

Sportcred - Mobile Application

- Developed a rapid product over the span of 12 weeks in an Agile environment using React Native and Firebase for a startup.
- Designed for sports enthusiasts as a platform of communication with one another.
